8. Insurance Cover

8.1 Organisers Arrangements

The organisers have made arrangements to insure entrants and drivers against third party risks whilst taking part in such parts of the event as are held on private lands or roads specifically closed for the purpose. This insurance cover will come into effect from the start of the event and will cease at the end of the event or at the moment of retirement or disqualification or exclusion of a competitor.

8.2 Entrants and Drivers Requirements

Vehicles must have a valid motor insurance policy which provides, as a minimum, Third Party Liability cover that complies with the Road Traffic Act. This can be either by extending an existing motor policy to cover the event, or by purchasing additional cover, provided under the Event Road Section Scheme as an adjunct to an existing motor policy.

If a competitor has an extension to their existing policy, they will be required to sign a declaration that the cover complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

If a competitor wishes to purchase additional Road Section cover via the organisers, then they can do so prior to the event providing they comply with the following:

- Is aged 19 years or older
 - Has held a full UK/EU driving licence for a minimum of 6 months
 - Has no more than 6 conviction points on their licence and no Bans of any kind
 - Has no more than one fault claim in the last 3 years
 - Do not have Third Party Extension cover on their existing motor policy
 - The vehicle has a valid MOT and is taxed for the road unless exempt from doing so.
- Anyone less than 19 years old will also be accepted at the same price should their co-driver be a more senior member of their family or be over 25.

Any competitor who falls outside these parameters may be offered cover at equivalent terms or an agreed price if approval from the appointed Insurance Broker has been obtained by the organisers prior to the event. Approval can be sought by Event Organisers sending an email to the info@kingfishermotorsport.com and provide the drivers name and date of birth, the date they passed their driving test and full details of any motoring claims and/or convictions. Additional cover provided the event and remains under the control or direction of the event organiser(s). Cover will cease immediately if you are precluded, excluded or retire from the event.

The Event Road Section scheme is underwritten by First Underwriting Limited who are authorised and regulated by the Financial Conduct Authority (FCA No 62485) and are registered in England and Wales (No 07857938). Registered Office: Level 15, The Gerkin, 30 St Mary Axe, London, EC3A 8EP.

At the time of publication of these SR's, we are unable to confirm the exact price of this scheme. Therefore, a provisional sum, before any loadings, of £40 (including insurance premium tax at 12%) has been included within these regulations as the basic rate per driver for the insured event.

Motorsport Ireland / Non-UK Crews / Non-UK Registered Cars

Crews with licences issued by Motorsport Ireland require a separate quotation from Kingfisher. Similarly, Non-UK resident competitors or those competing in Non-UK registered cars may also be subject to additional insurance premium costs.

The governing bodies are in the process of discussing with the exceptional engineering community that exists within motorsport to identify and develop technology to combat climate change. They are also establishing targets for all Motorsport UK clubs and events to be part of the Environmental Sustainability Accreditation and engaging with stakeholders to educate on calculation of carbon footprint, reduction strategies and offsetting.

We are aware of the natural beauty of the countryside and environments that we utilise to facilitate the sport you enjoy. We are looking at every conceivable option to improve the events' environmental credentials and carbon footprint. Our aim is to reduce and not merely offset. We will be monitoring our carbon footprint through the organisation and running of the event with the aim of significantly reducing this on future events.
